Guidelines for EEE Links Article Submission

EEE Links is a quarterly publication. The next publication focus and date will be:

November 16th - System on Chip Technologies
Article submission deadline is October 9, 2001

Submitting articles for EEE Links is a great means by which information and knowledge can be transferred inside and outside of the NASA community.

EEE Links support the NASA Electronic Parts and Packaging Program (NEPP). The EEE Links Newsletter information will augment the electronic parts, packaging, and radiation technologies.

EEE Links publishes many types of articles that relate to Electronic Parts, Packaging, and Radiation. First consideration goes to articles that deal specifically with the NEPP program. We also consider articles outside of the NEPP program but related to electronic parts, packaging, or radiation.

The submitted articles can be on current efforts referencing status and completion date. Articles can be informal and be from one paragraph to three pages in length on the following subjects:

Current Events within the NEPP Program and Projects
Parts
Packaging
Radiation
Reliability Issues Concerning NEPP
New / Emerging Technology
Space Flight Hardware
Quality Assurance Issues

To submit an article, please send it in a text-only format, preferably Microsoft Word, to Nancy Ford at nford@qssmeds.com. Please provide a copy of the Article Submission Checklist, found on the NEPP website at http://nepp.nasa.gov/imd/eee_links/article_checklist.htm. Provide the following information with your article submission:

Abstract - This two- to four-sentence paragraph summarizes the key points to capture the readers attention.
Photo - EEE Links publishes photos of the authors. The image should be scannable or in .gif or .jpg format.
Biography - This should be between 50 and 75 words outlining the author's job, background, professional accomplishments, and other pertinent accolades or areas of interest.
Contact Information - The author must include his or her business address, phone, fax, and email address.
Notes and References - Most articles require some references, and some contain incidental information best treated as notes. Use brackets for references and superscripts for notes, then list the two groups separately at the end of the article. These should be numbered in the order they appear in the article, not alphabetically.
Additional Reading - Our readers appreciate pointers to relevant books and articles. List these at the end of the article in the same format as references.
The author is responsible for obtaining any copyright releases or other releases necessary for their article. The releases should be forwarded to the EEE Links Editor.

Letters to the Editor

Limit letters to 250 words. Include your name, phone number, and e-mail address. Names are withheld from publication upon request. We reserve the right to edit for style, length, and content.
